

So. Davis lucky to have facilities

11.05.09 - 12:21 pm

Editor:

My wife recently was discharged from South Davis Community Hospital after a stay of about a year and a half at SDCH and Orchard Cove.

I would like to publicly express my appreciation of the professional, kind and overall excellent care she received there.

The staff is exceptional and since I spent a good part of every day there I got to know many of them very well. I was very impressed by their knowledge, friendliness and concern for the patients. This applies to all of the various positions — nurses, aides, rehab, recreation and the office. They all took very good care of my wife and were very helpful to me.

The South Davis area is very fortunate to have such wonderful facilities as these two. I would not hesitate to recommend either one of them to anyone.
